

Dear Senator Horn,

On behalf of all the men and women of FOX Sports Detroit, we enthusiastically support Michigan Senate Bill 1065 for passage. We see the benefits of hosting major sports events both here in Michigan and around the country every day. We know first-hand what it takes to be considered to host prestigious and important events; first is people – and Michigan is blessed with the best sports fans, the best sports volunteers in the country; the second is financial support – and this bill will provide the base level of support that is so critically needed for Michigan communities to host these events. Large or small, pro or amateur, sports brings a community together like nothing else.

The power of sports to unite and raise a community is what we built our business on. We're proud to call Michigan home. No other state in the union can boast the wide variety and quality of sports options like Michigan. And yet there is more opportunity to be realized. Michigan Senate Bill 1065 will help position Michigan for success. Thank you for your strong consideration and support of this bill.
